Triceratops

Coloring tip

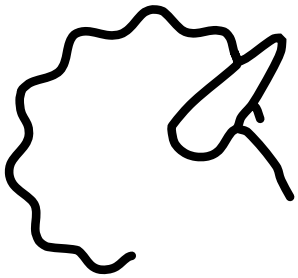

Try a sky blue body, a sunny yellow beak and horns, and darker blue spots. Any colour works: nobody knows what colour a real triceratops was.

Draw it line by line at trydrawalong.com/draw/triceratops

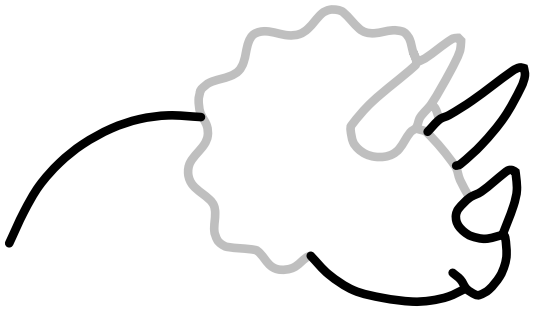

How to Draw a Triceratops

A smiling triceratops with a big wavy frill, three pointy horns, spots on its back and four sturdy legs.

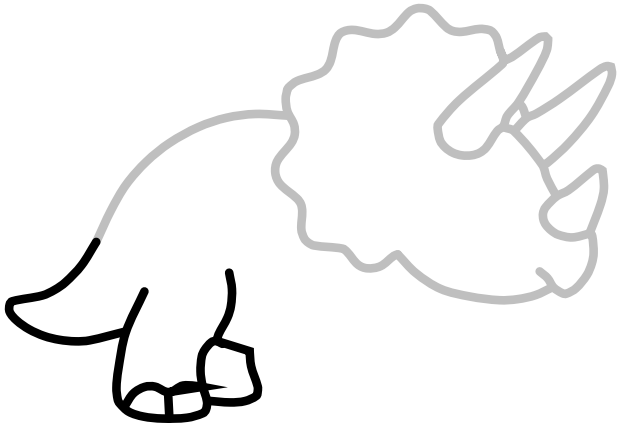

1 Steps 1-4

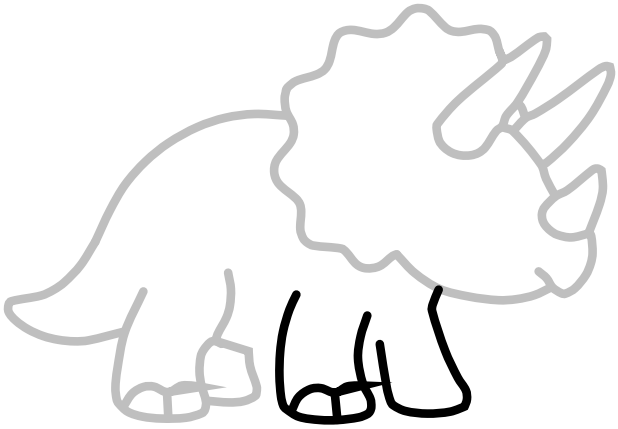

2 Steps 5-8

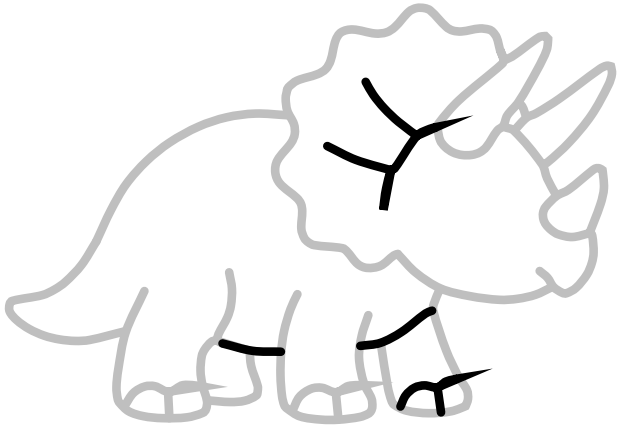

3 Steps 9-12

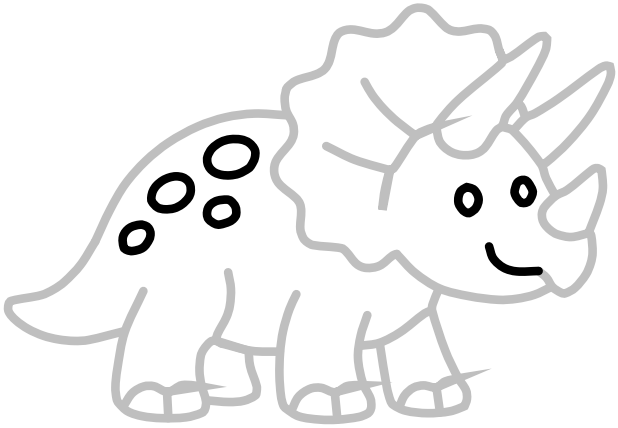

4 Steps 13-15

5 Steps 16-18

6 Steps 19-21

Trace the Triceratops

Go over the gray lines, then color it in.
