

Watermelon Slice

Coloring tip

Color the outer band green, keep the thin stripe cream, fill the big middle with coral red, and tap each seed black for that classic juicy watermelon look.

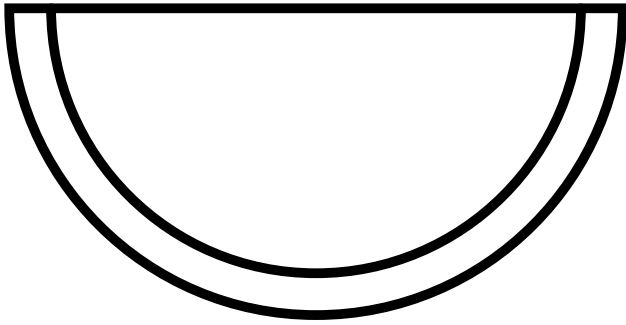

Draw it line by line at trydrawalong.com/draw/watermelon

How to Draw a Watermelon Slice

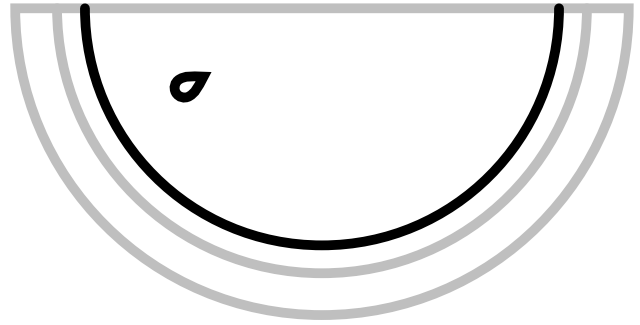

A watermelon slice is the perfect summer drawing, and it might be the easiest one on the whole site. This watermelon drawing for kids is really just one big smile shape: a straight line across the top, a giant curve underneath, two more curves for the rind, and a handful of tiny teardrop seeds.

When it is colored in, the green, cream and red bands make it look juicy enough to eat.

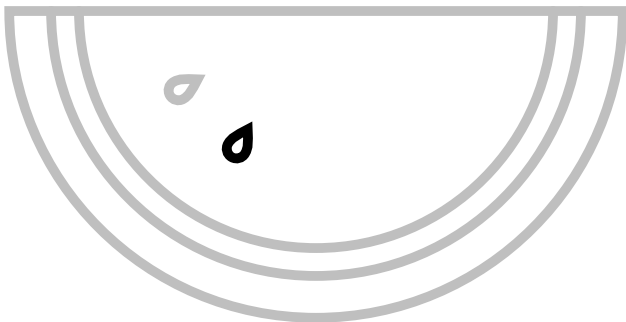

1 Steps 1-2

2 Steps 3-4

3 Step 5

4 Step 6

5 Step 7

6 Step 8

Trace the Watermelon Slice

Go over the gray lines, then color it in.
